Subject: [BULK] Protect our Buffalo River
Date: Tuesday, March 14, 2017 12:02:55 PM

Please keep the Buffalo NATIONAL River safe from the current hog farm and any potential additions to this horrible endeavor. As we all know, the Dept. of Environmental Quality let this farm slid by several years ago and now, lots of money later, it's proven to be a problem. (Dr. Neil Compton must be rolling in his grave!)

Many regional folks make their living from the Buffalo and hundreds (thousands?) more take their leisure time on the river.

We're all watching our DEQ and state government in this matter. Please do the responsible thing this time.

Thanks,
Geniece Yates
