---

Greetings,

I would like to see the permit for the C & H Hog Farm kept at it's present level and rescinded altogether as soon as feasible. There is no compelling reason to permit this sort of activity in one of the finest pristine areas of our state or nation. I'm aware of the test results so far published but have doubts as to their thoroughness or predictability for the future. There are far more suitable locations for this sort of activity. The reasoning for placing this facility makes no compelling economic or environmental sense and should be undone as soon as possible for the preservation of the Buffalo.

Thank you,

Hans P Heaney
