---

The fact any sort of CAFO was approved within the Buffalo NATIONAL RIVER watershed is disgusting. It is not only the most beautiful part of our state, it is one of the most beautiful places in the world. Instead of expanding operations, you should be shutting it down. You cannot further jeopardize the clean waters of the Buffalo so a corporation can get rich off the backs of the fools who believe that the corporation gives two shits about Arkansas and its natural beauty. Stop the permit. Stop the hog farm. Shut it all down. Protect our waters.
