Governor Hutchinson and ADEQ,

Please deny the Regulation 5 permit for the C&H swine factory in the Buffalo River watershed. I understand that many people for the hog farm do not understand the long term/possible pollution issues associated with this hog farm operation. I'm opposing this permit to preserve our own national treasure, The Buffalo River for my children, grand children to enjoy and love just like I did as a child and now as an adult. I recently backpacked the Buffalo River Trail (3 days) and saw the beauty of the river. I was fortunate to filter my drinking water straight from the CLEAN river. The hog farms WILL pollute the river at some point. I encourage you and anyone supporting this permit and future farms to go to the Buffalo River and experience it for yourself. I'm not concerned about the money or tourism that the area will loose, I'm only concerned about the environment and the purity of the River. Please deny Reg 5!!!!

Sincerely  
John Clayborn
