Subject: [BULK] Deny the permit to C and H Hog Farm
Date: Thursday, March 16, 2017 6:38:26 PM

Please deny the permit for the C and H Hog Farm which is in the watershed for the Buffalo National River Park. This amount of animal waste creates a potential disaster either in the event of a significant rain or over time with the seepage of waste in the karst topography. This river is special and unique to the country and vital to the Natural State for recreation and tourism. The hog farm has no business being there and should never have been permitted there. We have a right and a responsibility to protect the watershed.

I have lived in Arkansas for over 50 years. I have seen the degradation of the water quality in many waterways over my lifetime. If we don't protect it now it will only degrade more.

Thank you,

Jonna Hussey

Fayetteville, AR
