---

I am an avid outdoors woman, and frequently hike and float the iconic Buffalo river. I was shocked to learn of the C&H hog farm being allowed to operate so close to this pristine river. As one of the most popular tourist draws and a symbol of the state I couldn't imagine endangering it in any way! Please do whatever you can to protect the Buffalo river- deny C&H the permit and do whatever you can to have their facility moved to a safer location! We only have one Buffalo River!

Thank you,
