---

Please deny the permit for the continued operation of C&H farms concentrated animal feeding operation. I believe this is a major health issue for the surrounding area and a disaster waiting to happen. If a disaster occurs it will mean the loss of millions of dollars through tourism and jobs. The National Park Service and the United States has bestowed the extreme responsibility to ADEQ to maintain the pristine water quality of our great national treasure. I hope and pray you will realize and uphold this great responsibility you have been given.

Thank you,
