Governor Hutchinson & ADEQ-

Please deny the Regulation 5 permit for the C&H swine factory in the Buffalo River watershed. This industrial operation has no business in the geologically sensitive environment of our national river. Any failures or long term degradation risks a \$62M tourism industry in one of the poorest areas of our state. Not to mention the impact to the plant and animal life that lives in our national park.

Deny it because it makes economic sense. Deny it out of respect for the Arkansans who came before you who fought to protect it. Deny it to preserve this national treasure for the next generation. Deny it because it is the right thing to do.

An earnest lover of the Buffalo,

Jessica Kibling
