Greetings. The following article gives the best explanation of why the CH Hogfarm or any CAFCO should not be anywhere in this region, with its porous geology.

[Buffalo River Hog CAFO Threatens America's First National River](#)

**Buffalo River Hog CAFO Threatens  
America's First National River**

C&H Hog Farms produces millions of gallons of animal waste deep in

the "Jewel of Arkansas"

---

Please consider the thousands of jobs the Buffalo provides. Thirteen years ago NW Arkansas was considered home to the cleanest rivers in our state according to the Arkansas Game and Fish. Are we really prepared to say goodbye to that?

Thank you for your time and I pray that you vote on the side of clean water and thousands of jobs, rather than for C&H Hogfarm which employs eight people and enriches a foreign corporation.

Sincerely, Karen Bartle
