Subject: [BULK] Regulation 5 Permit To whom it may concern
Date: Monday, April 03, 2017 9:07:57 AM

Folks, As you may recall, the comment period on the Reg 5 permit application for the large C&H industrial swine operation near the Buffalo has been extended to April 6th.

Governor Hutchinson & ADEQ:

Please deny the Regulation 5 permit for the C&H swine factory in the Buffalo River watershed. This industrial operation has no business in the geologically sensitive karst environment of our own national river. Any failures or long term degradation risks a \$62M tourism industry in one of the poorest areas of our state. Deny it because it makes economic sense. Deny it out of respect for the Arkansans who came before you who fought to protect it.

I grew up with the river as vacations. My family didn't when the money or time to travel such as others. Everyday we were taught leave only foot prints or wonders for others to enjoy and that will help the area. We picked up a minimum of 20 items of trash a day no matter where we were to go. I still follow these rules. They are part of my mantra. I love my home, the lands, waters, and creatures. Please don't back the others continuing to destroy our homes and memories. I haven't even been able to get to the buffalo this year. The regulation 5 permit would destroy future tourist visits and eliminate my childhood and even parental memories of love within nature.

Camping or glamping.

Please and thank.

Much love from a true patriot of the land.
