Subject: Comments before new permit: Cargil and The Buffalo River
Date: Thursday, March 16, 2017 1:09:43 PM

My comment is NO. NO. NO.

Do NOT let ADEQ sneak another allowable permit to this pig farm that hovers near the Buffalo River.

Now is our chance (people of Arkansas) to STOP this awful intrusion into the Buffalo's watershed.

Cargill has enough re\$ource\$ to relocate this disgrace to somewhere else that is not as close to ANY river, stream, lake and especially not on terrain that is as porous as the kind in Newton County.

Please DENY this renewal permit in all consciousness that it is a foul disgrace placed in the name of GREED without any thought to environmental factors.

We know the ADEQ of Arkansas is a puppet of Cargill in spite of being an Arkansas State Agency. Thus it is even MORE IMPORTANT TO DENY THIS PERMIT RENEWAL.
