Amy,

Ms. Kuff is requesting a public hearing. Please see below. Thanks.

Subject: Public hearing needed

I live at the headwaters of the Buffalo National River. I moved there for the serenity, beauty, and unspoiled natural areas. I am greatly concerned with the hog farm in Newton County and all of the waste it is producing. I believe in small family farms and this is not small!! There is too much waste for this delicate karst topography to handle and the waste and bacteria WILL end up in the river and people's drinking water. I say no to requesting any more space to store or spread this toxic and smelly stuff. They need a public hearing so neighbors and scientist can openly voice their opinions about this operation and wanting to curtail further expansion. Thank you.

Sincerely,

Kate Kuff
