Subject: Fragile ecosystem not for profit
Date: Wednesday, April 05, 2017 10:58:28 AM

Dear ADEQ,

Please, do not risk our fragile ecosystem. Though I do eat pork on occasion, our ecosystem is far more important than one profiting family farm. MY National River comes first. Please, please, please deny the Regulation 5 permit for the C&H swine factory in the Buffalo River watershed. As many, many concerned citizens whom recreate regularly on the Buffalo have already stated to you "This industrial operation has no business in the geologically sensitive karst environment of our own national river. Any failures or long term degradation risks a \$62M tourism industry in one of the poorest areas of our state. Deny it because it makes economic sense. Deny it out of respect for the Arkansans who came before you who fought to protect it."

Sincerely,

Kim Lovely
