---

Hello.

I am writing to express my concern about the risk ADEQ is taking by allowing the C&H hog facility to operate on karst near the Buffalo River. Such a large operation should never have been placed so near this beautiful landmark.

I have written Gov Hutchinson to urge him to deny this permit and I hope you will also do whatever is necessary to prevent the dumping of up to 3 million gallons of hog waste each year into the Buffalo River Watershed.

Thank you.
