---

President Richard Nixon saved our Buffalo back in 1972 when he named it the 1st national river in our country. Now you have the opportunity to continuing saving it.

We can not survive without water and we need to protect what we have.

Please save our national river. Stop the issuing of a Reg 5 permit to the industrial swine operation on Big Creek on March 17th.

Do it out of respect for the Arkansans who came before you who fought to protect it. This is riding on your shoulders.
