Subject: [BULK] Save the Buffalo AGAIN!
Date: Friday, March 17, 2017 8:13:21 AM

There cannot be enough said about the importance of the Buffalo River to the state of Arkansas. Protecting this natural resource is critical for future generations. While the Hog farm has not currently caused damage, the time will come when it fails and pollutes the river. Please protect the Buffalo and do not permit the CAFO any further.

Thanks for your consideration.
