

Dear Katherine,

Please consider this to be my letter in support of C.H. hog farms. I have studied this. Follow the science. What the problem is is human waste / E. coli. NOT hog waste. Hogs are much cleaner than humans.

I am not just some idiot with nothing to do but complain. I raise cattle, I know & understand the science of all of this.

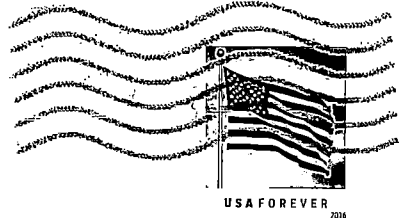

Some folks, somewhere, have chosen to jump on a bandwagon against these poor folks.

For mercies sake, give these folks their needed permits.

Thank you. Willie Dungan
