Governor Hutchinson & ADEQ,

Please deny the regulation 5 permit for the C&H swine factory in the Buffalo River watershed. This industrial operation has no business in the geologically sensitive karst environment of our own national river. Any failures or long term degradation risks a \$62 million tourism industry in one of the poorest areas of our state. Deny it because it makes economic sense. Deny it out of respect for Arkansans who came before and fought to protect it.

We are only visitors here on earth. We can't take the money we get or things we buy with our money with us in our coffin when we die, but we can take the love we received and the beautiful memories we created that will last forever. Remember your roots, why you are where you are right this second. I'm trusting you to make the right decision. I'm only 21 but my future kids and grandkids are relying on you too. Our ancestors are trusting you too. Thank you for your time. Have a blessed day and remember to spread your love and fly.
