Re: Permit - Comment, C & H Hog Farms Inc,  
Buffalo National River

A.D.E.Q.

I am strongly opposed to switching The Hog Factory from Federal review to the State permit process with no expiration date no required review. what good can come from this?

I also oppose the pending permit modification to allow hog manure to be on 32 additional fields.

Please protect the Buffalo River, protect 969 jobs, don't jeopardize \$62 million in visitor spending.

I am a copy of this letter to Governor Hutchinson.

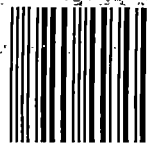

Sincerely,

Mark W. Corley
