Subject: Shameful handling of the hog confinement facility
Date: Wednesday, March 08, 2017 2:23:27 PM

I am writing to express how deeply disappointed I am at the actions of the ADEQ.

Not only was a very large containment facility allowed to be erected on karst above the Buffalo River, (amid seemingly incompetent, uninformed officials who appeared oblivious to the project, much less the more than obvious dangers to the environment it posed), now that inevitable problems are occurring, these officials seems to be in a heavy duty denial. They also seem to be employing delaying tactics, and less than honest communication with the public.

It's an outrage. The people of Arkansas deserve better.

Please shut down this facility, and act as guardians for our environment, not advocates for business at the expense of our beautiful Buffalo River.
