Subject: Regulation 5 permit for the C&H swine factory
Date: Thursday, March 30, 2017 11:51:36 PM

To whom it may concern,

Please deny the Regulation 5 permit for the C&H swine factory in the Buffalo River watershed. This industrial operation has no business in the geologically sensitive karst environment of our own national river. I've used this great resource my entire life and hope to pass it on to my children. I've seen the damage pig farms have done in other watersheds in our state, and it isn't pretty. Please have the decency and the foresight to deny this permit and all other future permits for any swine factories within the watershed. We the people would really appreciate it.

Sincerely,

Matthew Nelson
