I am writing to express my concern regarding the C&H Hog Facility, upstream from Buffalo National River. I am a former Ozark resident, and although I now live in Los Angeles, my partner and I regularly vacation in the Ozarks to canoe, kayak, hike, and camp along the Buffalo River--arguably one of the most beautiful national parks in the country. The potential environment fallout from the Hog Facility would not only destroy the area, but also result in a significant decline in tourism revenue generated by individuals such as myself.

Sincerely,
Monica Steinberg
