My name is Matt Whitaker. I'm a lifelong resident of the Ozarks, and I'm opposed to any kind of developments that would degrade the water quality of Ozarks streams. These natural resources should be given full protection from industries that would pollute or compromise their ecological integrity. There is no reason the C&H hog facility should be housed within the Buffalo River Watershed. Any kind of permit that would facilitate in their operations should be denied.

Sincerely,

Matt Whitaker, M.A.
