Subject: [BULK] C&H hog farm
Date: Monday, March 13, 2017 10:44:32 AM

I am writing to express my strong opposition to the approval of the application for the Water Draft Permit made by C&H hog farm. That hog farm should never have been allowed to set up in the water shed of the Buffalo National River in the first place. The area is ecologically fragile and the realities of a CAFO are incompatible to the welfare of that area for multiple reasons. Please reject that application. C&H should relocate to someplace more suitable. With respect. Robert Magness
