Governor Hutchinson & ADEQ:

Please deny the Regulation 5 permit for the C&H swine factory in the Buffalo River watershed. This industrial operation has no business in the geologically sensitive karst environment of our own national river. Any failures or long term degradation risks a \$62M tourism industry in one of the poorest areas of our state. Deny it because it makes economic sense. Deny it out of respect for the Arkansans who came before you who fought to protect it.

Save our national river from long-lasting pollution that threatens some of the most sensitive wildlife and pristine water in our country! Our children and our future need and deserve this national treasure. There is no reason to sacrifice it for a unsustainable way of farming that brings little good to all of our citizens.
