Governor Hutchinson & ADEQ:

Please deny the Regulation 5 permit for the C&H swine factory in the Buffalo River watershed. This industrial operation has no business in the geologically sensitive karst environment of our own national river. Any failures or long term degradation risks a \$62M tourism industry in one of the poorest areas of our state. Deny it because it makes economic sense. Deny it out of respect for the Arkansans who came before you who fought to protect it.

I want my children and their children to be able to enjoy this national pride located right here in our great state. Imagine the impact ruining a national river would have on our state's tourism. And what are we teaching future generations about things that have been given to us by God to protect?? Do the right thing Arkansas, show the people you are for the people and the things they hold dear.
