Subject: Regulation 5 permit C&H Swine Factory Buffalo River Watershed
Date: Sunday, April 02, 2017 6:55:33 AM

Governor Hutchinson & ADEQ:

I ask you to please deny the Regulation 5 permit for the C&H swine factory in the Buffalo River watershed. This geologically sensitive karst environment of our own national river is no place for an industrial operation like this swine factory.

This is one of the poorest areas of our state and any failures or long term degradation risks adverse impact on a \$62M tourism industry. Deny it because it makes economic sense. Deny it out of respect for Arkansans who came before you who fought to protect it.
