Governor Hutchinson and ADEQ,

Please deny the Regulation 5 permit for the C & H swine factory in the Buffalo River Watershed. I am deeply disturbed at this proposal because under this permit, one of the last remaining National Rivers in our great nation will be jeopardized. Not only will the river inevitably be polluted from allowing such a disgraceful business to operate nearby, you will effectively lose the respect of all Arkansans and those around the country who recognize and pride ourselves in calling Arkansas, The Natural State.

I am asking you as a resident of Arkansas, a young adult who wishes to keep Arkansas Natural, and someone who cannot stand to personally witness this permit to be passed.

Take a look at what you'll be harming for the sake of monetary gain. Please do what is ethical. Please represent Arkansans, not corporate America.

Thank you,
Sarah Berry
Saline County

Constance Hutchinson and KDSG,

Please along the Mississippi I posted for the U.S. & Arkansas history in the Buffalo River Watershed. I am strongly situated at this proposal because under the permit, one of the first remaining National Rivers in our great nation will be jeopardized. Not only will the river inevitably be polluted from allowing such a disgraceful business to operate nearby, you will effectively lose the respect of all Arkansians and those around the country who recognize and prize ourselves in calling Arkansas, The Natural State.

I am a proud graduate of Arkansas, an angry Ark. who loves the Buffalo River as history, and respects the nation's first wilderness area. The permit is the permit.

Thank you,

Sarah Berry
