In regard to C & H Hog Farms, Permit 5264-W -

Please do not allow this industrial hog factory to continue negatively impacting the Buffalo River watershed. This area is a magnificent example of respect through protection one of Arkansas' most amazing natural landscapes. The watershed and all of the life that depends on and enjoys it deserves better! Protect water and air quality in the Buffalo River watershed by denying this permit.

Thank You, Susan Frey
Winslow, AR 72959
