I am a business owner in Ponca, AR that depends on the health of the Buffalo River. I provide lodging and customer service to visitors to our area, mainly out of state folks which means dollars for Arkansas.

I think the original permit issued by ADEQ was short sighted and a mistake that needs to be corrected. I am in favor of farmers but not factories especially now that a Brazilian company is the only client of the CAFO and the pork is all exported to China.

Arkansas is taking on 100% of the risk of contamination, pollution and permanent damage to the Buffalo River, caves, endangered species while 100% of the profits do not remain in our state.

I IMPLORE YOU TO MAKE THE RIGHT DECISION FOR ARKANSAS.
