Please do not allow hog farm to continue to operate in Buffalo River area. This should never had been allowed to happen. We were the first river to gain national status. The beautiful Buffalo brings a lot of tourism to NWA. Arkansas prides it self on our beautiful state and we depend on tourism. I have using this river for my enjoyment since 1985. It is unbelievable that you would grant them a permit again. I will continue praying that folks eyes are opened to the destruction that is taking place of my Buffalo River.
