Date:

Dear Governor Hutchinson,

I urge you to support ADEQ's decision to deny a Reg. 5 permit to the ill-sited hog factory farm in the Buffalo River Watershed.

Closure of C&H seems to be the only solution towards preservation and protection of the Buffalo National River. I hope you will find a way to help the owners to move forward as the closure process takes place.

Swine concentrated animal feeding operations (CAFOs) simply do not have a place in the sensitive karst terrain of the Buffalo National River watershed where hundreds of families depend upon the health of the Buffalo River for their livelihoods.

Sincerely,

Signature
