---

I am writing this in support of C & H Farms' request for a permit renewal. This family seems to have complied with every request that has been given to them. The science concludes time and again, they are doing their part to ensure the Buffalo Watershed remains clean and safe. Family farms have many burdens and this family has carried a heavy load from the beginning. Their goal is to provide for their family. The goal of the opposition is to once again bully their opinion over that of research proven facts. Please look at the facts and maintain your agency's reputation. Facts dont lie but sometimes activists do.

Sincerely,  
Terrell A. Davis
