El Dorado, Arkansas 71731

RE: NPDES Permit No. AR0000752, AFIN 70-00040  
Combined Stormwater Background Flow Study

Dear Mr. Withrow:

The Department has reviewed your correspondence dated June 20, 2008. It is the Department's understanding that El Dorado Chemical Company will not be constructing a new outfall to combine Outfalls 006 and 007 and that the flow study has been terminated. Therefore, the Department will not include the new outfall (referred to as Outfall 008 in the permit renewal application) in the permit when it is renewed.

If you have any questions, please feel free to contact me at (501) 682-0612.

Sincerely,

Loretta Reiber, P.E.  
Engineer, NPDES Permits
