RE: NPDES Permit No. AR0000752, AFIN 70-00040

Dear Mr. Withrow:

The NPDES permit under which your facility is currently operating contains language requiring the development of a Stormwater Pollution Prevention Plan (SWPPP) for stormwater runoff associated with industrial activity which is not discharged through one of the outfalls in NPDES permit AR0000752. Currently, when a NPDES permit is renewed and contains SWPPP language, the facility is required to obtain separate permit coverage for stormwater runoff associated with industrial activity that is not discharged through an outfall contained in the NPDES permit.

The necessary forms and instructions have been enclosed. Please note that the SWPPP is required to be submitted with the Notice of Intent (NOI). The separate permit coverage must be obtained no later than January 31, 2011. If you have any questions, please feel free to contact me at (501) 682-0612.

Sincerely,

Loretta Reiber, P.E.  
Engineer, NPDES Permits
