PUBLIC NOTICE OF DRAFT DISCHARGE PERMIT  
PERMIT NUMBER AR0001147, AFIN 30-00011

This is to give notice that the Arkansas Department of Environmental Quality (ADEQ), Water Division, 5301 Northshore Drive, North Little Rock, Arkansas 72118-5317 at telephone number (501) 682-0622, proposes a draft modification of the permit number AR0001147 for which an application was received on 9/20/2013 for the following applicant under the National Pollutant Discharge Elimination System (NPDES) and the Arkansas Water and Air Pollution Control Act.

Applicant: Entergy Arkansas, Inc. - Lake Catherine Plant, 141 West County Line Road, Malvern, AR 72104. Location: on a peninsula on the east shore of Lake Catherine approximately 0.75 miles upstream of Remmel Dam; Latitude: 34° 26' 09.89''; Longitude: 92° 54' 03.52'' in Hot Spring County, Arkansas. The discharge of once through cooling water, low volume wastewater, and chemical metal cleaning wastewater is into Lake Catherine thence to the Ouachita River in Segment 2F of the Ouachita River Basin.

This is a modified permit. In accordance with 40 CFR 122.62, only the conditions that are the subject of the modification are reopened. The following changes are being made to the discharge permit:

1. All references to Total Recoverable Mercury at Outfall 001 have been removed from the permit. The facility has demonstrated that reasonable potential for water quality violations does not exist at that outfall for the parameter in question.
2. The requirement to conduct a PPS at Outfall 002 has been removed from Part IB since the permittee has fulfilled the requirement.
