RESPONSE TO COMMENTS

This is the response to comments received from EPA about the draft permit.

Permit No.: AR0001171
Applicant: Great Lakes Chemical Company - Central Plant
Prepared by: Loretta Reiber, P.E.
Date Prepared: April 10, 2006

The following comments have been received on the draft permit.

I. Response to issues raised

Required Changes

EPA made no specific objections to this permit.

Suggestions and Recommendations

ISSUE #1

EPA has several suggestions and recommendations for clarifying Great Lakes Chemical Company - Central Plant’s permit. These comments can be found in the permit file.

RESPONSE #1

1. Language has been included in Part III, #2 of the permit which states that the permittee may only discharge to Outfalls 001, 002, 003, and 004 in emergency situations once discharge to pipeline has commenced. The permittee is responsible for submitting documentation that an emergency situation requiring discharge to Outfalls 001, 002, 003, and 004 occurred. This documentation must be submitted within 48 hours of the occurrence of the emergency.

2. The Department also acknowledges receipt of the EPA’s comment recommending that all of the individual permits for the facilities discharging to the joint pipeline be revoked and reissued to synchronize the effective and the expiration dates. ADEQ does not concur with this comment at this time.
