RE: Best Management Practices Annual Report for 2008; NPDES Permit AR0001210

Dear Ms. Garner:

Pursuant to 40 CFR 430.03 (i)(4) the Georgia-Pacific Crossett Paper Operation is submitting its annual report of daily wastewater monitoring for the 2008 report year. The attached summary and detail sheets include the number and dates of exceedances of our action levels and actions taken in response.

For the 2008 report year the Georgia-Pacific Crossett Paper Operation maintained action levels of 85,747 pounds of TOC for the Lower Action Level and 94,655 pounds of TOC for the Upper Action Level in accordance with 40 CFR 430.03 (j)(1)(vi).

If you have any questions or need additional information, please contact Jim Cutbirth, our Manager of Environmental and Quality, at (870) 567-8144.

Sincerely,

A handwritten signature in cursive script that reads 'Karen Dickinson'.

BEST MANAGEMENT PRACTICES PLAN

DAILY MONITORING RESULTS – ANNUAL REPORT

The results of daily monitoring activities for the Georgia-Pacific Crossett Paper Operations for the 2008 reporting period are:

Lower Action Level: 85747 pounds

Upper Action Level: 94655 pounds

Summary: As detailed in the Georgia-Pacific Crossett Paper Operations BMP Plan, Total Organic Carbon (TOC) is the monitored parameter used to detect spills or leaks of spent pulping liquor, soap, or turpentine. All daily composite samples are collected at E-1, the inlet to the wastewater treatment system.

For the 2008 report year the Georgia-Pacific Crossett Paper Operations exceeded the Upper Action Level one (1) time and exceeded the Lower Action Level eight (8) times. The facility had no five-day exceedance periods of either the Lower or Upper Action Level.

Five-day exceedances of the Lower Action Level require an investigation to determine the cause. Five-day exceedances of the Upper Action Level require corrective actions to reduce the TOC loading.

All investigation reports are available for agency review.
