Ithaca, NY 14850-4614

Dear Mr. Browne:

Thank you for your recent petitions to the U.S. Environmental Protection Agency regarding your concerns related to the enforcement of the Clean Water Act and control of air emissions from the Georgia Pacific paper mill in Crossett, Arkansas.

EPA continues to monitor compliance of the Georgia Pacific paper mill facility through a thorough review of discharge monitoring report data, on-site inspections, and coordination with the Arkansas Department of Environmental Quality. Currently, EPA has not found any significant violations of the existing discharge permit issued under the Clean Water Act. However, if you have additional information demonstrating violations of the Clean Water Act and/or Clean Air Act, please provide this information to us.

If you have any questions, please contact Ms. Carol Peters-Wagnon, of my staff, at 214-665-3145.

Sincerely,

Jerry Saundets
