Subject: Georgia-Pacific Consumer Operations LLC, NPDES Permit #AR0001210

Loretta,
Georgia-Pacific Consumer Operations LLC submitted updated NPDES Application information to reflect the permanent shutdown of the bleached board machines, woodyard, pulpmill, and solid fuel boilers dated October 4, 2019. Since that time the shutdown and decommissioning process has been completed. Also, wastewater treatment system flows and loadings have stabilized following this decommissioning. GP no longer feels like a two phase permit is necessary. Please let me know if you have questions need additional information.

Sincerely,
Rachel M. Johnson
