The permit application is still under review. I really don't have a sense of the timing right now. I just started up a public mailing list a couple minutes ago (literally) and will put you on it.

Hi Loretta,

I've been trying to follow the NPDES permitting process for Georgia-Pacific's Crossett facility (AR0047554), and I was wondering if you might be able to give me an idea of where ADEQ is in the process. LEAN and the Ouachita Riverkeeper plan to comment on the draft permit, and we want to make sure we know when the draft is ready. If you can give me any idea on the timing, I would really appreciate it.

Thank you!

Jill
