Subject: RE: GP Crossett Paper-NPDES Permit #AR0001210

Our average unbleached pulp production is 1735 tons per day. I tried to add this to the form but it would not allow me to add another line.

I also need the unbleached pulp production to calculate the AOX limits.

Loretta,

Please find attached page 2 of Form 2C, which includes our updated production data. Let me know if you need anything else.
