Georgia-Pacific LLC, Crossett Paper Operations  
100 Mill Supply Road  
Crossett, AR 71635

We, the undersigned, support each and every objective of Ouachita  
Riverkeeper in their request for a public hearing as to the above

captioned discharge permit number. We unanimously assert that a

public hearing should be granted on this permit request. We are

aware that the discharge of Georgia-Pacific causes noxious odors in  
the Ouachita River, and causes a distinct change in color of the

river water in Louisiana. Also, pollutant chemicals, particularly

dioxins, should not be dumped into the river unless there is a full  
and complete compliance with all federal statutes and regulations,

as well as the statutes and regulations of the states of Louisiana

and Arkansas. Please grant a hearing on the referenced hearing  
request.

Crossett, AR 71635

We, the undersigned, support each and every objective of Ouachita  
Riverkeeper in their request for a public hearing as to the above

captioned discharge permit number. We unanimously assert that a

public hearing should be granted on this permit request. We are

aware that the discharge of Georgia-Pacific causes noxious odors in  
the Ouachita River, and causes a distinct change in color of the

river water in Louisiana. Also, pollutant chemicals, particularly

dioxins, should not be dumped into the river unless there is a full  
and complete compliance with all federal statutes and regulations,

as well as the statutes and regulations of the states of Louisiana

and Arkansas. Please grant a hearing on the referenced hearing  
request.

Crossett, AR 71635

We, the undersigned, support each and every objective of Ouachita  
Riverkeeper in their request for a public hearing as to the above

captioned discharge permit number. We unanimously assert that a

public hearing should be granted on this permit request. We are

aware that the discharge of Georgia-Pacific causes noxious odors in  
the Ouachita River, and causes a distinct change in color of the

river water in Louisiana. Also, pollutant chemicals, particularly

dioxins, should not be dumped into the river unless there is a full  
and complete compliance with all federal statutes and regulations,

as well as the statutes and regulations of the states of Louisiana

and Arkansas. Please grant a hearing on the referenced hearing  
request.

Georgia-Pacific LLC, Crossett Paper Operations  
100 Mill Supply Road  
Crossett, AR 71635

We, the undersigned, support each and every objective of Ouachita Riverkeeper in their request for a public hearing as to the above captioned discharge permit number. We unanimously assert that a public hearing should be granted on this permit request. We are aware that the discharge of Georgia-Pacific causes noxious odors in the Ouachita River, and causes a distinct change in color of the river water in Louisiana. Also, pollutant chemicals, particularly dioxins, should not be dumped into the river unless there is a full and complete compliance with all federal statutes and regulations, as well as the statutes and regulations of the states of Louisiana and Arkansas. Please grant a hearing on the referenced hearing request.

Crossett, AR 71635

We, the undersigned, support each and every objective of Ouachita Riverkeeper in their request for a public hearing as to the above captioned discharge permit number. We unanimously assert that a public hearing should be granted on this permit request. We are aware that the discharge of Georgia-Pacific causes noxious odors in the Ouachita River, and causes a distinct change in color of the river water in Louisiana. Also, pollutant chemicals, particularly dioxins, should not be dumped into the river unless there is a full and complete compliance with all federal statutes and regulations, as well as the statutes and regulations of the states of Louisiana and Arkansas. Please grant a hearing on the referenced hearing request.

Georgia-Pacific LLC, Crossett Paper Operations  
100 Mill Supply Road  
Crossett, AR 71635

We, the undersigned, support each and every objective of Ouachita  
Riverkeeper in their request for a public hearing as to the above

captioned discharge permit number. We unanimously assert that a

public hearing should be granted on this permit request. We are

aware that the discharge of Georgia-Pacific causes noxious odors in  
the Ouachita River, and causes a distinct change in color of the

river water in Louisiana. Also, pollutant chemicals, particularly

dioxins, should not be dumped into the river unless there is a full  
and complete compliance with all federal statutes and regulations,

as well as the statutes and regulations of the states of Louisiana

and Arkansas. Please grant a hearing on the referenced hearing  
request.

Georgia-Pacific LLC, Crossett Paper Operations  
100 Mill Supply Road  
Crossett, AR 71635

We, the undersigned, support each and every objective of Ouachita  
Riverkeeper in their request for a public hearing as to the above

captioned discharge permit number. We unanimously assert that a

public hearing should be granted on this permit request. We are

aware that the discharge of Georgia-Pacific causes noxious odors in  
the Ouachita River, and causes a distinct change in color of the

river water in Louisiana. Also, pollutant chemicals, particularly

dioxins, should not be dumped into the river unless there is a full  
and complete compliance with all federal statutes and regulations,

as well as the statutes and regulations of the states of Louisiana

and Arkansas. Please grant a hearing on the referenced hearing  
request.

Riverkeeper in their request for a public hearing as to the above

captioned discharge permit number. We unanimously assert that a

public hearing should be granted on this permit request. We are

aware that the discharge of Georgia-Pacific causes noxious odors in  
the Ouachita River, and causes a distinct change in color of the

river water in Louisiana. Also, pollutant chemicals, particularly

dioxins, should not be dumped into the river unless there is a full  
and complete compliance with all federal statutes and regulations,

as well as the statutes and regulations of the states of Louisiana

and Arkansas. Please grant a hearing on the referenced hearing  
request.

100 Mill Supply Road  
Crossett, AR 71635

We, the undersigned, support each and every objective of Ouachita Riverkeeper in their request for a public hearing as to the above captioned discharge permit number. We unanimously assert that a public hearing should be granted on this permit request. We are aware that the discharge of Georgia-Pacific causes noxious odors in the Ouachita River, and causes a distinct change in color of the river water in Louisiana. Also, pollutant chemicals, particularly dioxins, should not be dumped into the river unless there is a full and complete compliance with all federal statutes and regulations, as well as the statutes and regulations of the states of Louisiana and Arkansas. Please grant a hearing on the referenced hearing request.

We, the undersigned, support each and every objective of Ouachita Riverkeeper in their request for a public hearing as to the above captioned discharge permit number. We unanimously assert that a public hearing should be granted on this permit request. We are aware that the discharge of Georgia-Pacific causes noxious odors in the Ouachita River, and causes a distinct change in color of the river water in Louisiana. Also, pollutant chemicals, particularly dioxins, should not be dumped into the river unless there is a full and complete compliance with all federal statutes and regulations, as well as the statutes and regulations of the states of Louisiana and Arkansas. Please grant a hearing on the referenced hearing request.

Crossett, AR 71635

We, the undersigned, support each and every objective of Ouachita Riverkeeper in their request for a public hearing as to the above captioned discharge permit number. We unanimously assert that a public hearing should be granted on this permit request. We are aware that the discharge of Georgia-Pacific causes noxious odors in the Ouachita River, and causes a distinct change in color of the river water in Louisiana. Also, pollutant chemicals, particularly dioxins, should not be dumped into the river unless there is a full and complete compliance with all federal statutes and regulations, as well as the statutes and regulations of the states of Louisiana and Arkansas. Please grant a hearing on the referenced hearing request.

Crossett, AR 71635

We, the undersigned, support each and every objective of Ouachita  
Riverkeeper in their request for a public hearing as to the above

captioned discharge permit number. We unanimously assert that a

public hearing should be granted on this permit request. We are

aware that the discharge of Georgia-Pacific causes noxious odors in  
the Ouachita River, and causes a distinct change in color of the

river water in Louisiana. Also, pollutant chemicals, particularly

dioxins, should not be dumped into the river unless there is a full  
and complete compliance with all federal statutes and regulations,

as well as the statutes and regulations of the states of Louisiana

and Arkansas. Please grant a hearing on the referenced hearing  
request.

We, the undersigned, support each and every objective of Ouachita Riverkeeper in their request for a public hearing as to the above captioned discharge permit number. We unanimously assert that a public hearing should be granted on this permit request. We are aware that the discharge of Georgia-Pacific causes noxious odors in the Ouachita River, and causes a distinct change in color of the river water in Louisiana. Also, pollutant chemicals, particularly dioxins, should not be dumped into the river unless there is a full and complete compliance with all federal statutes and regulations, as well as the statutes and regulations of the states of Louisiana and Arkansas. Please grant a hearing on the referenced hearing request.

Crossett, AR 71635

We, the undersigned, support each and every objective of Ouachita  
Riverkeeper in their request for a public hearing as to the above

captioned discharge permit number. We unanimously assert that a

public hearing should be granted on this permit request. We are

aware that the discharge of Georgia-Pacific causes noxious odors in  
the Ouachita River, and causes a distinct change in color of the

river water in Louisiana. Also, pollutant chemicals, particularly

dioxins, should not be dumped into the river unless there is a full  
and complete compliance with all federal statutes and regulations,

as well as the statutes and regulations of the states of Louisiana

and Arkansas. Please grant a hearing on the referenced hearing  
request.
