RE: Request for Public Hearing  
Discharge Permit No. AR0001210AFIN02-00013  
Georgia-Pacific – Crossett Paper Operation

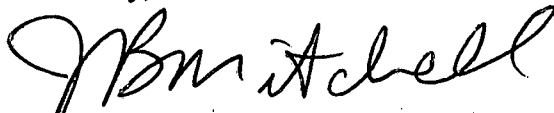

Gentlemen:

This letter comes on behalf of the Ouachita Parish Police Jury, the governing authority of Ouachita Parish, Louisiana. It is the Ouachita Parish Police Jury's understanding that your agency is considering a renewal of the referenced wastewater discharge permit for Georgia-Pacific's Crossett Paper Operation.

At its regular meeting held on March 15, 2010, the Ouachita Parish Police Jury unanimously adopted a motion to request that your agency hold a public hearing before acting on the renewal of this permit. As you would expect, the Ouachita River is truly the lifeblood of our Parish and many of our citizens are rightfully concerned regarding the parameters of this discharge permit.

Thank you very much for your consideration of the requests for public hearing that you are receiving. The Ouachita Parish Police Jury appreciates your efforts to protect the environment, including the entire length of the Ouachita River.

Sincerely,

Jay B. Mitchell  
Assistant District Attorney

Crossett, AR 71635

These Comments are meant to supplement and not replace any of the previous comments submitted by the commenters.

1. Georgia Pacific's draft permit violates federal regulations. ADEQ cannot approve discharge into impaired water without a showing that the discharge will not cause or contribute to the impairment of the Ouachita River in Louisiana. ADEQ must not approve the draft permit until it fully examines the impacts of the discharges on the Ouachita River. Where a water body is impaired, federal law prohibits the issuance of a permit which has the reasonable potential to cause or contribute to an excursion above any state water quality standard.
2. The permit application is incomplete because ADEQ is abusing its discretion by proceeding with the permitting process on an incomplete application. The Use Attainability Analysis that the permit relies on is incomplete and out of date (page 2 of the fact sheet). ADEQ should have based the permit on EPA District VI 2007 UAA. Not to do so is inappropriate. Therefore the underlying basis for the permit is unlawful.
3. ADEQ fails to meet federal Antidegradation requirements for the receiving waters. The draft permit violates antidegradation laws. For example, allows for higher levels of AOX than the previous permit. In addition the fact sheet does not show how the permit meets any antidegradation exceptions.
4. The permit limitations are not lawful because the limitations are based on discharges for paper mills and not these other sources. (page 5 of the fact sheet). Process wastewater (Paper Mill, Plywood Plant, and Studmill operations), sanitary wastewater, landfill leachate, site stormwater, chemical plant, building products, treated effluent from the city of Crossett Ar., truck wash and backwash wastewater.
5. The draft permit fails to adequately protect the environment and public health. Much of this failure is due to the permit application's incompleteness and consequent lack of basis for scientifically sound limitations and parameters.

Dear Sir,

Could you please explain to me ~~why~~ <sup>when</sup> the  
Arkansas Paper Mill dumps its waste into the  
Ouachita River?

Bob Whitely May Concern:

I am an avid outdoorsman and I travel the Ouachita river on a regular basis, I have never understood how an Arkansas Paper Mill could dump its waste in Louisiana.

Could you please explain this for me.

Thanks,

To whom it may concern

I hope this will reach someone who care about the state of Louisiana and our part of the Ouachita River that is being polluted, by our neighbors that live and work in Arkansas.

We hope you will help us make the river clear like it one was, so our children can enjoy the river also.

We, the undersigned, support each and every objective of Ouachita Riverkeeper in their request for a public hearing as to the above captioned discharge permit number. We unanimously assert that a public hearing should be granted on this permit request. We are aware that the discharge of Georgia-Pacific causes noxious odors in the Ouachita River, and causes a distinct change in color of the river water in Louisiana. Also, pollutant chemicals, particularly dioxins, should not be dumped into the river unless there is a full and complete compliance with all federal statutes and regulations, as well as the statutes and regulations of the states of Louisiana and Arkansas. Please grant a hearing on the referenced hearing request.

Georgia-Pacific LLC, Crossett Paper Operations  
100 Mill Supply Road  
Crossett, AR 71635

We, the undersigned, support each and every objective of Ouachita  
Riverkeeper in their request for a public hearing as to the above

captioned discharge permit number. We unanimously assert that a

public hearing should be granted on this permit request. We are

aware that the discharge of Georgia-Pacific causes noxious odors in  
the Ouachita River, and causes a distinct change in color of the

river water in Louisiana. Also, pollutant chemicals, particularly

dioxins, should not be dumped into the river unless there is a full  
and complete compliance with all federal statutes and regulations,

as well as the statutes and regulations of the states of Louisiana

and Arkansas. Please grant a hearing on the referenced hearing  
request.

Crossett, AR 71635

We, the undersigned, support each and every objective of Ouachita  
Riverkeeper in their request for a public hearing as to the above

captioned discharge permit number. We unanimously assert that a

public hearing should be granted on this permit request. We are

aware that the discharge of Georgia-Pacific causes noxious odors in  
the Ouachita River, and causes a distinct change in color of the

river water in Louisiana. Also, pollutant chemicals, particularly

dioxins, should not be dumped into the river unless there is a full  
and complete compliance with all federal statutes and regulations,

as well as the statutes and regulations of the states of Louisiana

and Arkansas. Please grant a hearing on the referenced hearing  
request.

Crossett, AR 71635

We, the undersigned, support each and every objective of Ouachita Riverkeeper in their request for a public hearing as to the above captioned discharge permit number. We unanimously assert that a public hearing should be granted on this permit request. We are aware that the discharge of Georgia-Pacific causes noxious odors in the Ouachita River, and causes a distinct change in color of the river water in Louisiana. Also, pollutant chemicals, particularly dioxins, should not be dumped into the river unless there is a full and complete compliance with all federal statutes and regulations, as well as the statutes and regulations of the states of Louisiana and Arkansas. Please grant a hearing on the referenced hearing request.

Riverkeeper in their request for a public hearing as to the above

captioned discharge permit number. We unanimously assert that a

public hearing should be granted on this permit request. We are

aware that the discharge of Georgia-Pacific causes noxious odors in  
the Ouachita River, and causes a distinct change in color of the

river water in Louisiana. Also, pollutant chemicals, particularly

dioxins, should not be dumped into the river unless there is a full  
and complete compliance with all federal statutes and regulations,

as well as the statutes and regulations of the states of Louisiana

and Arkansas. Please grant a hearing on the referenced hearing  
request.

We, the undersigned, support each and every objective of Ouachita  
Riverkeeper in their request for a public hearing as to the above

captioned discharge permit number. We unanimously assert that a

public hearing should be granted on this permit request. We are

aware that the discharge of Georgia-Pacific causes noxious odors in  
the Ouachita River, and causes a distinct change in color of the

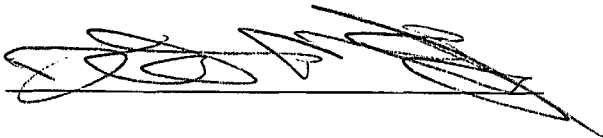

river water in Louisiana. Also, pollutant chemicals, particularly

dioxins, should not be dumped into the river unless there is a full  
and complete compliance with all federal statutes and regulations,

as well as the statutes and regulations of the states of Louisiana

and Arkansas. Please grant a hearing on the referenced hearing  
request.

Crossett, AR 71635

We, the undersigned, support each and every objective of Ouachita Riverkeeper in their request for a public hearing as to the above captioned discharge permit number. We unanimously assert that a public hearing should be granted on this permit request. We are aware that the discharge of Georgia-Pacific causes noxious odors in the Ouachita River, and causes a distinct change in color of the river water in Louisiana. Also, pollutant chemicals, particularly dioxins, should not be dumped into the river unless there is a full and complete compliance with all federal statutes and regulations, as well as the statutes and regulations of the states of Louisiana and Arkansas. Please grant a hearing on the referenced hearing request.

Crossett, AR 71635

We, the undersigned, support each and every objective of Ouachita  
Riverkeeper in their request for a public hearing as to the above

captioned discharge permit number. We unanimously assert that a

public hearing should be granted on this permit request. We are

aware that the discharge of Georgia-Pacific causes noxious odors in  
the Ouachita River, and causes a distinct change in color of the

river water in Louisiana. Also, pollutant chemicals, particularly

dioxins, should not be dumped into the river unless there is a full  
and complete compliance with all federal statutes and regulations,

as well as the statutes and regulations of the states of Louisiana

and Arkansas. Please grant a hearing on the referenced hearing  
request.

We, the undersigned, support each and every objective of Ouachita Riverkeeper in their request for a public hearing as to the above captioned discharge permit number. We unanimously assert that a public hearing should be granted on this permit request. We are aware that the discharge of Georgia-Pacific causes noxious odors in the Ouachita River, and causes a distinct change in color of the river water in Louisiana. Also, pollutant chemicals, particularly dioxins, should not be dumped into the river unless there is a full and complete compliance with all federal statutes and regulations, as well as the statutes and regulations of the states of Louisiana and Arkansas. Please grant a hearing on the referenced hearing request.

Riverkeeper in their request for a public hearing as to the above

captioned discharge permit number. We unanimously assert that a

public hearing should be granted on this permit request. We are

aware that the discharge of Georgia-Pacific causes noxious odors in  
the Ouachita River, and causes a distinct change in color of the

river water in Louisiana. Also, pollutant chemicals, particularly

dioxins, should not be dumped into the river unless there is a full  
and complete compliance with all federal statutes and regulations,

as well as the statutes and regulations of the states of Louisiana

and Arkansas. Please grant a hearing on the referenced hearing  
request.

Crossett, AR 71635

We, the undersigned, support each and every objective of Ouachita Riverkeeper in their request for a public hearing as to the above captioned discharge permit number. We unanimously assert that a public hearing should be granted on this permit request. We are aware that the discharge of Georgia-Pacific causes noxious odors in the Ouachita River, and causes a distinct change in color of the river water in Louisiana. Also, pollutant chemicals, particularly dioxins, should not be dumped into the river unless there is a full and complete compliance with all federal statutes and regulations, as well as the statutes and regulations of the states of Louisiana and Arkansas. Please grant a hearing on the referenced hearing request.

Crossett, AR 71635

We, the undersigned, support each and every objective of Ouachita  
Riverkeeper in their request for a public hearing as to the above

captioned discharge permit number. We unanimously assert that a

public hearing should be granted on this permit request. We are

aware that the discharge of Georgia-Pacific causes noxious odors in  
the Ouachita River, and causes a distinct change in color of the

river water in Louisiana. Also, pollutant chemicals, particularly

dioxins, should not be dumped into the river unless there is a full  
and complete compliance with all federal statutes and regulations,

as well as the statutes and regulations of the states of Louisiana

and Arkansas. Please grant a hearing on the referenced hearing  
request.
