NPDES Permit # **AR0001210**
AFIN 02-00013

Dear Ms. Reiber:

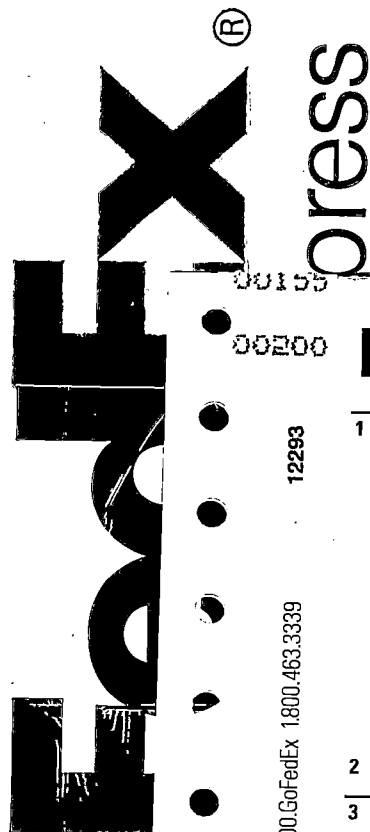

Georgia-Pacific Crossett LLC (GP) submitted a renewal application for NPDES Permit No. AR0001210 on May 4, 2015. On October 16, 2015, ADEQ issued a modification to the permit, which became effective on October 30, 2015. The modification allowed for the use of Hydrogen Peroxide and Organic Iron Catalysts, AOTech CW and AOTech S. Condition number 21 was added to Part II of the permit which included usage restrictions. The purpose of the chemical additions is to control odor, not to provide treatment of the wastewater. There are no adverse environmental impacts: to the contrary, the use of the advanced oxidation system has beneficially reduced odor in the community as well as provided other beneficial treatment impacts including increased BOD reduction and color reduction. As such, GP requests that the usage restrictions for these odor control chemicals be removed from the renewal permit.

If you have any questions or need additional information, please feel free to contact me at (870) 567-8670 or by email at sarah.ross@gapac.com.

Sincerely,

A handwritten signature in black ink that reads 'Sarah M. Ross'. The signature is fluid and cursive, with the first letters of each word being capitalized and prominent.
