Re: Sludge Pond Closure
NPDES Permit AR0001210
Supplemental Fill Material

Dear Ms. Jordan:

Your letter of July 26, 1996 to NPDES Permits Branch was forwarded to me for review and preparation of a response. We appreciate your letter updating us on the progress of the closure of the sludge pond. Your request to utilize material from the mill area as a supplemental fill material is approved. We would recommend that this and other fill materials be used in such a manner as to preclude any contamination of surrounding waters of the State.

We appreciate your efforts in continuing to meet program requirements. If you have any questions or require additional information, please contact me.

Sincerely,

Keith Brown, P.E.
Manager, State Permits Branch
