Marysia, Attached are our standard conditions for the land-application of biosolids. As you know, the conditions I am attaching in this e-mail are for State Permits. To incorporate them in your NPDES permit you may need to do a little doctoring. If you need additional help, or if you want me to review the biosolids conditions in you NPDES permit please let me know or just e-mail it to me.

Regards,

Henry

Henry,

Please send the set of biosolids conditions to Marisa to attach to her permit. Thanks.

Please call or e-mail if you have any questions.

Hello Jamal,

I am working on renewal of NPDES Permit No. AR0020036. City of Melbourne. They land apply their sludge on 30 acres in Section 10, Range 9 West, Township 16 North. The current permit includes land application language. They used to be covered under state permit No. 4575-W.

What sludge land application language do you want me to include in this permit?

Thanks,

m
