RE: NPDES Permit Number AR0020036, AFIN 33-00026  
Proposed Waste Storage Pond Closure

Dear Mayor Halbrook:

The proposed waste storage pond closure by City of Melbourne was received on June 8, 2017. The proposal has been reviewed and approved by the Department. In accordance with Department policy, a stormwater construction permit under the ARR150000 will be required if the construction activities include clearing, grading, and excavation that result in land disturbance of equal to or greater than five acres.

Please be aware that any residual solid waste and contaminated water should be collected for proper treatment or disposal. When all construction activities that disturb soil are complete, the site has to be stabilized with vegetation. A copy of Permit ARR150000 can be obtained in the link:
