Honorable Crawford A. Wyatt
City of Mountain View
P.O. Box 360
Mountain View, AR 72560

RE: NPDES Permit Number AR0020117, City of Mountain View

Dear Mayor Wyatt:

A review of our records indicates that NPDES Permit Number AR0020117 for the City of Mountain View will expire on **7/31/2008**. In accordance with federal and state regulations, and as stated in the permit, permittees wishing to continue discharging wastewater subsequent to the expiration date of their permits are required to apply for renewal **not less than 180 days** prior to the expiration date of the permit in accordance with 40 CFR 122.21 (d). If the NPDES application is not received 180 days prior to the expiration date, without receiving prior approval from the director, the current permit may be canceled and enforcement action taken.

Please find enclosed, as a courtesy, the necessary application and EPA forms for renewing the existing individual NPDES Permit. All major facilities, all categorical industries, and any facility that believes there are priority pollutant(s) present in their discharge, must submit the Form PPS. As each discharge is unique, please disregard enclosed forms that do not apply. All forms are available on-line:

http://www.adeq.state.ar.us/water/forms_inst.htm

If our records are incorrect, or if you do not desire to renew your permit, or if you need more time which can not be more than 30 days prior to the expiration date of the permit, **please respond by letter as soon as possible**.

Please note that the ADEQ is in no way responsible for alerting permittees of a permit's expiration. If you have any questions, please feel free to contact John Bailey with the NPDES Section at (501) 682-0629. Thank you for your cooperation.

Sincerely,

Katie Henderson, Secretary II
NPDES, Water Division
