Facility: City of Mountain View - Mountain View Wastewater Treatment Plant
Permit Tracking No.: **AR0020117 + C**
AFIN: **69-00011**

Attached is the pre-draft NPDES permits for the above referenced facility. You may review the pre-draft for 5 business days. The purpose of this review is to allow the facility an opportunity to comment on typographical errors, mathematical errors, misinterpretations of process descriptions, and other factual errors relating to the application and draft permits. Most other substantial changes will need to be submitted during the official public comment period or in a separate permit application if not contained in the current record. Any comments on this pre-draft can be returned to me via email at Kai.Imamura@adeq.state.ar.us. For reference, a copy of the existing permit for this facility can be found at

<https://www.adeq.state.ar.us/downloads/WebDatabases/PermitsOnline/NPDES/Permits/AR0020117.pdf>

After the five day review period, the public notice will be published by DEQ in a newspaper of general circulation of your facility and a certified letter containing the public notice, a copy of the draft permits, and the Statement of Basis will be sent to the Responsible Official.
